

## Quick Reference Guide for the usage of the Sous-Vide Probe

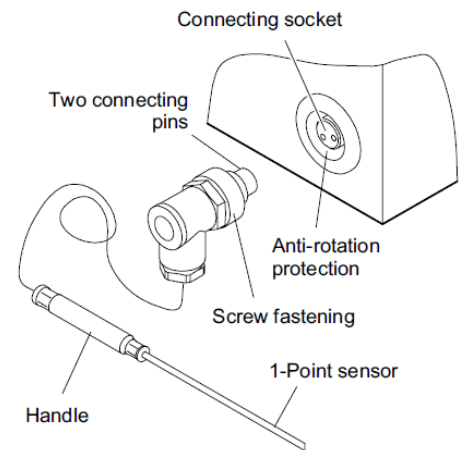

en

Congratulations for having purchased the Sous-Vide option. This is a quick reference guide that will help you to use this option correctly.

- ✓ Please be careful. The Sous-Vide Probe and the handle can be hot. Risk of burning!
- ✓ The tip of the Sous-Vide Probe is sharp.

### Connection to the device

- ✓ Unscrew the lid.
- ✓ Be careful! Do not bend the connector pin.
- ✓ Note the right angle plug and the connection socket.
- ✓ Connect the right angle plug.
- ✓ Screw the right angle plug tight.

The Sous Vide Probe is automatically controlled by the Sous Vide option!

### Insertion into the product

Attention! Do not bend the Sous-Vide Probe!

1. Place the Sous Vide sealing pad at the thickest part of the product. The vacuum bag has to be free of fat and clean in order for the sealing pads to stick.

2. Stick the Sous Vide Probe through the sealing pad into the product. Place the tip of the probe in the middle.

3. Unplug the Sous Vide probe when finished and clean it with soap and place it safely in the accessory bag.
4. Screw the lid on top of the connection socket for dirt protection.
